MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: White House Meeting of the Committee Management Officers

1. Mr. Rabb of the White House called a meeting of Agency representatives in connection with the "Committee to end all committees". There were 15 other Agency representatives present.

2. The meeting had to do primarily with the explanation of the purpose and a round robin as to progress. There are three areas wherein are contained many committees. One of them is Export Controls, and Rabb appointed a task force for further scrutiny. A man named Kilbourne from Commerce is Chairman, and I am one of the four members.

3. Then Brad Patterson asked that I undertake a scrutiny of the Committees entitled "International Advisory Committee on International Exchange of Publications", and the "Advisory Committee on Foreign Language Publications" with its three sub-Committees. He indicated a possibility of some overlapping or confusion as to these seemingly like endeavors.
